

## School Budget Is Approved Here At Board Meet

Expenditure of \$452,980 Budgeted For Five District Schools

The governing board of the Tahoe Truckee Unified School District Tuesday approved a \$452,980 budget to operate the school of the district during the coming fiscal year.

While this represents an increase of \$6,756.95 over the 1953-54 budget, no increase in the \$1.55 tax rate is expected.

The largest single item in the current budget is for instruction, this totaling \$169,777 as compared with \$163,606.38 for last year. A considerable increase in the cost of maintenance is noted, jumping from \$6,753.33 for 1953-54 to \$17,300 for this year. This is largely due to the program of improvement in the school plants presently under way.

Operation of the school plant will cost \$50,234 this year as against \$45,773.48 for this time last year.

Administration costs shows a slight decrease from \$20,581.31 to \$19,200, while transportation costs went up slightly from \$29,421.96 to \$29,879.

The amount of tax money required to balance the budget, over and above the various federal and state appropriations, has been fixed at \$250,284.70.

The proposed budget was approved on the basis of an estimated daily average attendance of 610 in the five schools of the district.

## ROTARY GOVERNOR MAKES TRUCKEE CALL

W. E. "Bill" Jansen, the new Rotary district governor, honored the Truckee Rotary Club with his first official visit since taking office.

The district governor gave a well prepared speech entitled "Your Golden Opportunity." This speech was all about events that will take place during the coming of the golden anniversary of Rotary International beginning February 23, and culminating with the international convention in Chicago in June.

Last Thursday, July 29, the Truckee Rotary Club journeyed to Loyton to be the guests of the Loyton Rotary Club at their annual barbeque. This was one of the high limits of the year for members.

Among the guests were two of the local Lions Club members, Earl Stice and Reg Smart, who came along "just for the ride."

The next meeting of the Rotary Club will be at the Donner Lake Lodge on August 9.

## Truckee Lions Win In Reno Softball Contest

In a fast softball game, featured by many hits, the Truckee Lions Club last Sunday outplayed the Reno Arch Lions by a 24 to 22 score.

Following the game refreshments were served.

## SANITARY DISTRICT ELECTION SEPT. 20TH

Wednesday, August 11th is the final date on which candidates can file their petitions for election to the Truckee Sanitary District board of directors. The election is slated for September 20th and the terms of David Rose, Joe Mattos and Jas. McIver will expire. Nomination papers may be obtained from J. J. McGlade, board clerk.

## Lowrys Open Trailer Court at Kings Beach

KINGS BEACH—Mr. and Mrs. Grant Lowry have purchased an area 125 by 150 feet one block back of the Broadway Theater here and have converted it into a modern trailer court. The court is equipped with water, lights, showers and other conveniences.

The Lowrys have named their business the L Trailer Court. They plan to remain at Kings Beach throughout the winter.

Lowry was formerly with Blake, Moffitt & Towne Paper Company.

## Mrs. Harvey Hocker Is Feted At Shower Here

Mesdames Omar Alexander, Loren Ferdinand, Gale Brown were hostesses at a party, Friday evening in the home of the latter in honor of Mrs. Harvey Hocker of Oroville.

Games were played and refreshments served after the shower of pink and blue gifts, held in an umbrella were presented to the honoree. Other invited guests included Mesdames David Rose, Harry Digesti, Ken Hedlund, John Street, Tom Patterson, Jack Ellis, Ken Foster, Chet Burns, Erving Johnson, William Schull of Truckee, Oscar Beach of Chico, Marion Rawlins, A. E. Strang, A. M. Strang of Sierraville.

## South Swimmer To Attempt Length Of Tahoe Next Month

Following the successful swimming of Lake Tahoe last week by Bert Capps of San Francisco, who set a new record for the crossing, Egyptian channel swimmer Fahmy Attalah, a student at the University of Southern California, announced he will try to swim the 22-mile length of Lake Tahoe in September.

The 44-year-old swimmer, a member of Egypt's Olympic team in 1948, said he wants to be the first person to swim the length of the mountain lake.

No one has ever conquered the lake's length, although its width has been successfully crossed three or four times.

Attalah swam 41 miles in the Mediterranean Sea in 1941, and in 1950 swam the longest course in the English Channel, a distance of 80 miles, in 27 hours and 13 minutes. The stocky swimmer, who plans to make his attempt about September 10, said Lake Tahoe's icy water shouldn't bother him because he is accustomed to swimming in cold water.

## Betty Jo Hamblin, Earl Smith Are Married In Cedar Rapids, Iowa

Mr. and Mrs. Earl Smith, Jr., following a wedding trip in northern states, are expected to return here from Cedar Rapids, Iowa, where they were married last Sunday.

The bride is the former Betty Jo Hamblin, daughter of Mrs. Nelson Hamblin and the late Mr. Hamblin of Cedar Rapids and has many friends here since joining the faculty of the Tahoe Truckee Unified School District.

The formal ceremony was performed by candlelight at 6:30 p.m. in the First Congregational Church by Rev. J. Richard Wagner. Autumn shades with white and greenery decorated the church. Vocal and organ music were heard during the nuptial rite.

Mrs. Smith wore a waltz length gown of imported Swiss embroidered organza over taffeta and a French cap caught the shoulder length veil and she carried a bouquet of Amazon lilies and lilies of the valley centered with a white orchid.

Mrs. Frank Baumgartner, sister of the bride was the matron of honor and Richard M. Hamblin, best man.

One hundred guests attended the reception which followed in the Roosevelt Hotel where the couple cut the three-tiered, flower-decorated cake.

Mrs. Smith is a graduate of Iowa State College, Smith, son of Mr. and Mrs. Earl Smith, Sr., Truckee, attended local schools and the University of Nevada before his service as an officer in the U. S. Navy, is well known and liked throughout this region where he is employed by Ransome Company. They will be at home to friends in the Dumas Apartments.

## REBEKAH OFFICIAL TO VISIT TRUCKEE

The official visit of the president of the Rebekahs will be the occasion for a dinner meeting August 25 at the Methodist Community Church and members are asked to make reservations.

At a meeting last week, presided over by Noble Grand Alice Mayer, Valray Stewart was named a left support to the noble grand and during the meeting District Deputy Pearl Heller presented Dorothy Kay with a friendship gift. Refreshments were served by Mrs. Stewart and Kathryn Gall.

## DANCERS TO DINE

The Donner Dancers, a group of local people interested in old-time dances, will have a pot luck supper at Donner Lake Friday evening at 7:30. Members are asked to bring a hot dish or salad and their own utensils.

## CHAMBER MEETS

Only routine business occupied the meeting of the Truckee Chamber of Commerce Tuesday evening at Brown's Cafe. Howard Newsham presided at the session.

## Tahoe Chamber Enters Protest On Water Project

Ask That Study Be Made To Protect Property At Lake Tahoe

Continued protests from California interests are pouring into Washington against the proposed \$46,000,000 Washoe Project.

Congressman Clair Engle last week announced that the effort of Nevada Senator Pat McCarran to have the entire project approved under a bill for flood control has been blocked, although approval was given the \$791,000 Truckee river project, long since approved by the army engineers and bureau of reclamation.

McCarran had hoped to secure approval of the entire project which would have included the Stampede dam and diversion tunnel, taking many miles of the Truckee river direct into Nevada through a five-mile tunnel.

Local interests vigorously protest this plan and now the Lake Tahoe Sierra Chamber of Commerce has added its voice of protest in a letter to official representatives.

The letter points out that while the chamber is in accord with the plan of the engineers to remove reefs in the Truckee river below Sparks and clearing the lower river of debris as an emergency measure, they lack further study of the effects of the major project before action is taken.

"We want to see all the water of the Tahoe watershed conserved for beneficial use, but we in California and Nevada fail to find any specific mention of help to Lake Tahoe to alleviate the recurring flood-ruinous damage to our property by maintaining a range of water level from 6223 to 6229. The original study of the Corps of Engineers was built around creation of reservoir capacity below Tahoe to permit storage of one foot of Tahoe water between 6228 and 6229 when most of our damage occurs, thus giving the relief we have prayer for. The bureau of reclamation seeks to create the additional reservoirs but offers no relief to Tahoe except through the very expensive and probably visionary tunnel project."

## Archery Instructions To Start August 11th

Archery instruction will be held Wednesday, August 11th, between 2 and 5 p. m. at the new range at the forest service site with Carroll Maynard as instructor. Cliff Ellis said that 10 bales of hay and the range have been prepared and it is hoped that a group of enthusiasts will be present at the initial meet.

## Rumors of Meiss Injury Are Not Verified Here

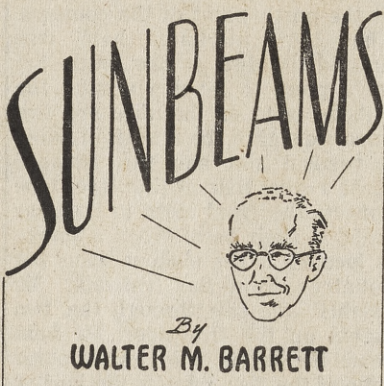

Rumors that E. A. Meiss, Truckee S. P. engineer, may have been hurt in an auto accident in the bay area were discounted by fellow employees today, following investigation. A telephone call from the AAA at Auburn seeking information regarding Meiss set off a trail of rumors, but later it was learned the call was on a routine matter and apparently did not concern a wreck. Meiss presently is visiting in the bay area.

## Parent-Nursery School Discussion Here Tonight

There will be a meeting at the high school at eight o'clock tonight to make further plans for the Parent-Nursery School. Mrs. Bruce Wright, the newly appointed teacher will be present and will help the group decide such things as ages of children to be included, equipment needed, hours of meeting, etc.

Inasmuch as the cost of heating the basement of the Community Church appeared to be prohibitive, the nursery school sessions will be held in the Truckee Elementary School.

Those who are interested in the program, which will be educational for parents as well as pre-school children, are urged to attend the meeting tonight or to see Mrs. Gilbert Kumble or Mrs. Jack Neugebauer.

By WALTER M. BARRETT

The continuing fish planting program on the streams in this area directly reflects the work and efforts of the Truckee Outdoor Sportsmen. The officers of this organization have worked long and hard for just such a project and we feel that they are entitled to a lot of support and encouragement for their worthwhile endeavor. It's easy enough to sit on the sidelines and complain, but these fellows don't complain or get discouraged, and as a result, the Truckee and other streams in the area are surrendering more trout to fishermen now than for many years.

A sharp drop in rural traffic deaths in California during the first six months of this year, despite a heavy gain in vehicle registration may be well attributed to the intensified enforcement practices exercised by the highway patrol. Every phase of traffic law enforcement is being stepped up under orders by Highway Patrol Commissioner B. R. Caldwell. In issuing 124,027 citations, the officers traveled more than seven million miles, nearly half a million miles more than in the same period of 1953. Only through continued enforcement and rigid punishment can the heavy toll on the highways be reduced. We can only hope that the good start will continue. Every traffic law was designed to protect lives and property and even the most insignificant should be obeyed.

## Cancer Fund Drive Here Shows Good Returns

Despite the fact that the 1954 fund raising campaign of the Nevada County Committee of the American Cancer Society netted only 70 per cent of the original goal of \$1970, the Truckee district made a very worthwhile showing.

Of the \$1,380.83, thus far collected, Truckee accounted for \$343.50, while Nevada City reported \$307.15 and Grass Valley, \$611. The balance came from Supervisor District No. 4 and county-wide collections.

John Finnegan was chairman of the Truckee committee. It is not too late for those who up to now have failed to do so, to send their 1954 contributions to the campaign committee in their district.

## BAZAAR TO PROVIDE CANCER FUND AID

Preparations for the Helping Hand Club bazaar to be held at the Pines, Kings Beach on Wednesday, August 11 are being completed, according to Chairman Dorothy King, worthy matron of Truckee Chapter No. 116, Order of the Eastern Star.

Proceeds from the sale of delicious foods and well made aprons and other articles for the home will be given to swell the order's cancer fund.

The affair, one worthy of wholehearted support, will begin at 10 a.m. on the designated date and will continue during the day until everything is sold.

## Patrol Captain Here

Captain R. B. Langner, who has replaced Captain George Peterkin of Roseville as commanding officer of the Placer Area squad of the California Highway Patrol, visited here yesterday, accompanied by Patrolman Les Kelly, a former local patrolman. Captain Langner expressed himself as being well pleased with his new assignment.

## Five Gates Open At Lake

TAHOE CITY—With five gates open, the level of Lake Tahoe Monday stood at 6228.23 feet. Art Frodenberg, cooperative observer, reported. Aside from a trace of rain July 26, the area remains dry and warm, with an extremely high fire hazard.

## Strike Continues As Local Meet Of Employees Held

Stockton Box President Is Speaker At Meet Held Here

With the prolonged strike of lumber and sawmill workers reaching toward the end of the second month, renewed meetings between union officials and employers has failed utterly to bring any hope for an early end to the controversy and the situation is apparently hopelessly deadlocked.

The strike, which has affected more than 100 workers in the Truckee area, has now extended into Idaho and Montana, bringing to five the number of states affected.

A meeting of employees and officials of the Stockton Box Company was held here Friday afternoon.

Charles Grey of Stockton, president of the company, explained the economic reasons for the company standing pat on its refusal to grant the 12½ cents an hour increase demanded by the workers. He made no plea but stated the stand of the firm and left it to the men to arrive at their own decision.

Union officials present spoke briefly, calling attention to settlements made elsewhere in the strike area.

No decision was reached and none is expected locally. The mill here is under the jurisdiction of the union with headquarters at Auburn.

As a result of the west coast tie-up, the shortage of lumber and wood products is being felt nationwide.

In Truckee the season is fast coming to a close without much hope that the mill can be reopened for production for some time—possibly not again this year. Many of the employees of the mill and logging affiliates have left to seek employment elsewhere, others are standing by hopeful that a settlement can be reached.

## 20-30 Club Continues Lake Safety Projects

Continuing their water project at Donner Lake, the members of the 20-30 Club have completed a float, anchored about 50 feet from shore on the west end.

The white safety barrels, joined by rope are close in and a reminder to inexperienced swimmers. The newest addition affords a popular goal and rest for those who wish to swim the distance. Cliff Ellis announced this week.

## Walking Blood Bank For O. E. S. Started

Following the meeting of Truckee Chapter No. 116, Order of the Eastern Star Tuesday, August 3, Carl Leisure, laboratory technician of the Tahoe Forest Hospital, typed and filed the blood of members who wished the information in case of emergency. Mrs. Ray Hintz assisted in the voluntary work.

On August 17 Leisure is scheduled to return when it is expected other members will pledge blood donations, should a need arise. Mrs. Lillian Miller is in charge of the program.

## Will Attend Meet

Next week Rev. Wesley Osman will attend the pastor's school for the pastors of the Calif.-Nev. conference held at the College of the Pacific in Stockton on August 9-13. His wife will visit her folks in Placerville a couple of days.

Pastor Osman continues his series of sermons on the church. Sunday he will preach on "The Vision of the Church."

## Will Meet—

The Women's Society of Christian Service meets on this Thursday at 1:30 at the church.

## Wedding License—

Ersulo Gomez and Bonifacia M. Garcia, both of Norden, applied at Reno last weekend for a marriage license.

## Out Of State Guests—

Mr. and Mrs. August Benjamin have had as their recent guests, Mr. and Mrs. Lowell Benjamin of Lebanon, Ind., and Mrs. Henry Benson of Grand Junction, Colo.

## Honored by Lions

Charles R. Heller, immediate past president of the Truckee Lions Club, last week was appointed zone chairman of District 4A by District Governor Romney Pierce of Yuba City. Heller will serve six clubs in this zone, Truckee, Lake Tahoe, Colfax, Downsville, Grass Valley and Nevada City. The appointment was considered a high honor and reflects the work done by the chairman during his incumbency as president.

## Mrs. Friday Will Visit Wyethia Club Friday; Silver Tea Successful

A regular meeting of the Wyethia Club will be held at the clubhouse at 8 p. m. Friday.

Mrs. P. G. Friday, Northern District president, will be honored guest speaker of the evening. She will be accompanied by the state chairman on institutions, Mrs. Chas. A. Shoemaker of Davis. Hostesses for the evening will be Mesdames George Kamp, Anton Mahne and John Rau.

The silver tea held in the garden of the home of Mr. and Mrs. I. Firpo last Friday was successful. Mrs. Don Rich was enjoyed in piano selections. The committee for the tea comprised Mesdames August Benjamin, Ray McCarty and Sylvia Beck.

## LOCAL WOMAN IS HURT IN CRASH OF CARS NEAR HERE

Three reportable motor vehicle accidents occurred in this area during the past week, the California Highway Patrol reports.

Mrs. Betty Smisek, employed by Bank of America here, suffered minor injuries Sunday at 11 a.m. when the car she was driving was struck in the rear by one operated by Herman Byreno of Los Angeles, one mile west of Truckee.

Mrs. Smisek, driving west, slowed to make a right turn just west of the Ransome Company plant. Byreno apparently was driving too fast to stop and hit the car ahead, knocking it completely over the drainage ditch. He was cited for speeding by Patrolman T. F. Sheehan.

A crash near Rainbow Saturday at 10 p.m. wrecked cars driven by Ambrose Gallagher of Hollywood and Paul Jamerson of Grass Valley, but the drivers escaped injury. Jamerson was cited by Patrolman Carroll Maynard for being on the wrong side of the highway when he hit the Gallagher machine.

Merton A. Smith of Reno was fortunate in escaping injury Friday at 11 p.m. when his car's steering apparatus went bad and he crashed into a bridge six miles east of here. Patrolman Martin Sturke investigated but did not cite the driver.

## rites CONDUCTED FOR LUTHER C. KENNEDY

TAHOE CITY—Funeral services were held in Roseville on August 2 for Luther C. Kennedy, age 66, father of Mrs. Margaret Broyles of Tahoe City.

The deceased was a veteran of World War I and a native of Missouri. He had been hospitalized for the past year at the Veterans Hospital at Reno. Following the last rites in the First Baptist Church, burial followed in the Sylvan Cemetery.

## From City—

Miss Frances Mary Miratta of San Francisco will spend a vacation this month at the home of her mother, Mrs. A. Miratta and her grandfather, A. Pesce.

## At Donner Lake—

Mr. and Mrs. Carl Smith of San Francisco have been spending a vacation at their Donner Lake home.

## Search Fails For Body Of Victim In Lake Drowning

Los Angeles Man Drowned In Donner In Sunday Accident

Dragging operations at Donner Lake Lodge failed to recover the body of Sam Grillo, 30, Pacoima, Los Angeles County, drowned there Sunday afternoon at 3 o'clock.

Deputy Sheriff Roy Waters, who conducted the search, said hooks were lowered more than 250 feet but the bottom was not touched. Doubt was expressed whether or not the body would ever be recovered.

Grillo was drowned when he was attempting to show his eight-year-old nephew, Bobby Ranny how to swim.

Waters and Constable N. F. Dolley who were summoned to the scene immediately after the tragedy, recounted the story as follows:

Grillo rented a small boat from E. C. McReynolds and with his own two children, Steven, 4½ and Linda, 2½, and his nephew went to a point approximately 200 feet off the south shore toward the west end of the lake. He fitted Bobby with a life jacket and lowered him over the side and then went into the water himself.

A short time later Grillo went down, apparently suffering from a sudden attack. The third time he disappeared, Bobby called for help and W. S. Barry and Patrick Regan, both of Reno, heard his call from a quarter mile away and hurried to the scene. They returned Bobby to the boat and returned it to the landing. Officials at the Donner State Park were notified and the local officers and Truckee Ambulance hurried to the lake.

Diving and a continued search failed to locate the body. Arthur Lindauer, who has a summer home at the lake, assisted the officers as did other volunteers.

Mr. and Mrs. Grillo and family were visiting here with the Rex Reids and occupied a cabin near there.

Mrs. Howard Newsham narrowly escaped a similar fate Sunday when she swam out into deep water and was rescued by her husband after she had gone down for the second time in the cold water.

## SPORTSMEN TO MEET TUESDAY; SIGNS ARE INSTALLED

A meeting of the Truckee Outdoor Sportsmen will be held at Capitol Hall Tuesday, August 10 at 7:30 p.m.

Routine business will be transacted and a report made on the recent fish plantings and approaching deer season. Game Warden Irv Single is planning to present movie films on fish hatchery procedure.

Charles Osburn, president of the club, announced this week that the new "watch for deer" signs have been completed by the Jolley brothers and are being installed, three on each side of Truckee along Highway 40. These Scotch-lite tape lettered signs replace the old dark ones which the club installed some years ago.

Funds for the signs totalling \$180 were provided from the district's share of the state fish and game fine money collected in the local court. It was procured through the joint efforts of Supervisor H. G. Loehr and Osburn.

## Softball Season Closes With Game Tonight

The final official game of the Truckee Athletic Club softball league will be played this evening at the local field with the Sierra Pacific Power Company and the Independents vying for the trophy.

Loyalton will play a third game with the Truckee Athletic Club softball team on Sunday afternoon, August 15, beginning at 2 p.m. on the local diamond. Each has won a game, the coming event will determine the winner.

## FREE LECTURE ON CHRISTIAN SCIENCE

The Truckee Group of Christian Scientists announce a free lecture on Christian Science will be held at the Donner Theater here Sunday afternoon, August 15 at 3 o'clock. The lecturer will be Henry Allen Nichols, C.S., member of the Board of Lectureship of the Mother Church, The First Church of Christ, Scientists, in Boston, Mass. His subject will be Christian Science and the "Steady Gain of Mankind."

The public is invited to attend. The meeting is sponsored by the First Church of Christ, Scientist, of Reno.

## Arrives Here—

Robert Roth arrived last week from San Pedro to replace Orval Vaughan as senior inspector at the Truckee state inspection station.

**Miss Reynolds Honored**

## GROSS INCOME FROM TAHOE FOREST PAST MILLION MARK

NEVADA CITY—For the first time in the history of the Tahoe National Forest, gross income from the sale of timber, grazing rights and summer home permits exceeded \$1,000,000 during the fiscal year ending July 1.

The largest single income item was \$880,000 from the sale of timber.

Approximately \$240,000 will go into the treasuries of Sierra, Nevada, Placer and Yuba counties. The fund will be distributed according to the number of Tahoe Forest acres within each county. Under law these funds must be used for schools and roads.

Timber sales this year total 29,000,000 board feet with another 11,000,000 feet to be advertised soon for immediate cutting.

## TAHOE FOREST ACTIVITIES

### The Fire Lookout

Did you ever wonder just what that person does who lives high atop a mountain peak, in a little 12 feet by 14 feet tower, on constant watch for a forest fire? Have you ever tried to figure out how he locates the exact location of a fire? Do you wonder, too, how he keeps busy all day so he will not lose interest in his main job—fire detection and reporting?

Well, entire books have been devoted to the life of a lookout. It is not possible to tell all in this short column, but here are the highlights.

The lookout, does live 24 hours a day, seven days a week in that tower. A wood stove in one corner, a small sink next to it, a bed in the other corner, and a small storage chest, just about constitutes his

furnishings. A few lookouts are a little more fortunate in that there may be a separate sleeping room underneath the tower, or even a small house nearby. One or two are fortunate enough to have electricity, a refrigerator and other "modern" conveniences, but in the main, it is a 30 foot or 60 foot high tower, glass enclosed quarters on top with a "catwalk" all around; that is the lonely lookout's summer home.

In the very center of the room is a pedestal four and one-half feet tall. On this pedestal is permanently fixed a fire-finder.

### The Firefinder

The firefinder, is a disc, 2 feet in diameter, with 0 to 360 degree markings around the edge. On the disc is photo-engraved a map of the area seen by the lookout. It is set absolutely level with the 0 marking at the north point of the compass. The 180° marking, half way around the disc, is due south. Set on a pivot to revolve around the outside edge of the disc are two opposite sights, the rear sight being a vertical slot and the forward sight a cross hair. A thin steel tape connects the front sight to the rear sight at their base. When a smoke is located as the lookout scans the country from the catwalk, he "sights" the fire through the two sights on the firefinder. He next reads the degree point on the outer edge of the disc, then, to the best of his ability, locates the fire on the map along the steel tape which connects the front and rear sight.

### Reporting a Fire

By either telephone or radio, the lookout reports to the fire dispatcher the circle reading and the map location. This map location, however, is not always accurate for it is very difficult to judge distances when looking over mountainous terrain; but the circle reading is exact, except that smoke drifts and haze may tend to confuse the inexperienced.

The dispatcher has a well map with the lookout points accurately spotted with 0 pointed north. Upon receiving the lookout reading, a drawstring (located at exactly the lookout point) is pulled out and laid across the map at the degree reading reported. Along this string, at an estimated distance from the lookout, is the fire. The dispatcher next contacts another lookout who

## Commercial Nursing School Is Hit By State Investigating Committee

SACRAMENTO (CNS)—The state legislature today (Monday) was asked to clamp down on California commercial schools of nursing which, it was claimed "turn out men and women of such limited knowledge and training as to constitute a very grave danger to the public."

Ruth E. Feider, executive secretary of the state board of nurse examiners asserted before the senate interim committee on licensing business and professions that many "gullible students have been imposed upon by these commercial institutions in the name of nursing."

Miss Feider endorsed a long list of objections to the schools, which she said are legal merely because they do not claim to be accredited by the state. She said the schools have been brought to the attention of the board of examiners "many, many times," and that they have become "a very real problem."

Among the practices of the schools, Miss Feider continued, is the mailing of circulars to daughters of farmers, urging enrollment "for as little as seventy-five dollars."

## Dolley Warns Against Unauthorized Collectors

N. F. Dolley, chairman of the Truckee-Lake Tahoe Salvation Army Committee, today announced that currently the drive for funds are being made in this area. It is interesting to note that the funds raised here are used for local cases and while the uses for the money are seldom publicized, they go to only proven worthy cases.

The Truckee chairman noted that persons collecting money here at times are using tambourines. He cautioned that the Salvation Army never uses this method for collection and asked that investigations be ordered if collection are noted without credentials.

## Birthrate In Antelope Herd Is Encouraging

Northeastern California's slowly declining antelope herd had an encouragingly high birthrate this spring, according to studies being made by the department of fish and game.

This year's ratio was 84 kids to every 100 does, about twice last year's mark of 40 kids per 100 does. In 1948, when heavy snows came during the May kidding season, the ratio hit a low of 32 to 100.

The annual check, made from a department plane, is part of a fed-

can see into the same territory and spot the smoke. This second lookout lines up his sights and reports the reading on his firefinder, which, of course, differs from the first lookout as he is looking from a different angle. The dispatcher "strings" this reading and where the two strings cross on the wall map, denotes the accurate location of the fire. To make sure, a third or even fourth lookout takes the reading and the process is repeated. Dispatching of men and equipment immediately follows.

As this is lengthy already, next week we will tell about the other duties of the lookout, such as aircraft reporting, movement of clouds, obtaining water, etc.

# PRE-SCHOOL CLASS IS ORGANIZED FOR TAHOE LAKE SCHOOL

TAHOE CITY—Mrs. Elaine Wright of Tahoe City will be the first teacher to be employed at the Tahoe Lake Elementary Nursery School when the regular semester starts this fall. The little old red schoolhouse at the rear of the present modern building is being remodeled and refinished inside to accommodate the needs of the class

of pre-kindergarten pupils which will number around 20, with a waiting list already on hand.

For some time past mothers of the Lake Tahoe region have been seeking such a program for their little ones, but not until this year has it been possible to organize and secure an allocation from the Truckee-Tahoe Unified School Board. Organizers of the new Nursery school, which has the sanction of the school board and Superintendent of Schools Everett O'Rourke of Truckee, is credited to Mrs. Marilyn Boyle, Mrs. Beccy

# DANCE CAMP WILL BE INNOVATION ON DONNER SUMMIT

There are Boy Scout camps, Girl Scout camps, YMCA camps and various others—all widely known—but now comes the Dance Camp, less universally known, but equally impressive.

The Dance Camp at Hoyfjellet Ski Lodge off Castle Peak road will be opened from August 20 to 30. For the initial troupe of the Hoyfjellet dance caravan, a group of professionals, semi-professionals and students will camp and during their stay will entertain at various club meetings and lodges throughout the area.

Mr. and Mrs. John Zahara, operators of Hoyfjellet, and themselves accomplished dancers, will be assisted by Lillian Keber, formerly of the Pasadena Civic Ballet Company, who will accompany the dancers to the camp. Mrs. Keber will be the camp director.

Shontz, Mrs. Margie Broyles, and Mrs. Betty Starratt, all of Tahoe City.

Mrs. Wright, who is the present president of the Tahoe Lake PTA here, invites parents to contact her if further information is sought. She believes there is a real need for the new project, which will teach the little ones a number of useful subjects, such as play and discipline, music and rhythm, color combinations and the fundamental preschool principles of getting along with other children, and sharing.

# ANNUAL AUDIT OF TAHOE UTILITY'S BOOKS COMPLETE

TAHOE CITY—The annual audit of the financial affairs of the Tahoe City Public Utility District by Harry M. Straine & Sons of Sacramento, shows the district in good condition, C. W. Vernon, president of the board of directors, said.

The net earnings of the water department showed a decrease of \$289.87 for the year as compared to the previous 12 months, and the auditor suggested that the board study the feasibility of an increase in water rates to meet increasing costs of operation and anticipated improvements.

The balance sheet shows total current assets of the district as of May 31, at \$49,209.75, while the fixed assets, including land, development and facilities, was set at \$15,168.62. The sewage disposal system now nearing completion was listed at \$135,226.94, to bring the total assets to \$199,605.31.

Current liabilities included contracts payable for work on the sewer system totaling \$36,814.49, payable bonds, interest and attorney and engineering fees and totaled \$45,394.59, while the non-current liabilities, including general obligation and revenue bonds, totaled \$129,500.

Operating and administrative expenses were listed at \$3600, maintenance of the Tahoe Commons cost \$232.11 and depreciation was listed at \$516.33.

Net earnings from operation for the year was \$811.59.

# NORTH TAHOE

By JUDGE HARRY CHARRISON

Jack Braden of Kings Beach tells me that Boyd's Skylake Trailer Park in Kings Beach has been sold to Mr. and Mrs. Red Waddell who have disposed of a gas station in San Diego. They have already taken over. They have one son and daughter and will attend Truckee High School. Jack already has his two sons, Douglas and Stephen, staying with him for the summer months, but they both say we are looking forward to Christmas and the good old snow. Sounds good this hot weather, huh?

Mr. and Mrs. James Jensen were guests at our home the past weekend. They had just returned from Denver, Colo., where they spent a couple of weeks with their daughter and her husband. The Jensen home is in Reno.

Was talking to a community minded citizen the other day, I asked what he was doing these days. Well, he says, "Yesterday I saved myself some money, I went and got some supplies out of town, the prices here are terrible." Well, he went to Minden to get a stock of meat then back to Reno for groceries and hardware, which cost him \$37. So I figure it out. His mileage cost \$8, so he parked his car in Reno, went into a gambling place and lost \$25. Came out, and paid \$1 for overtime parking, which altogether was \$34 gone. So the goods that he could have bought at the lake for a little more than they cost him in the first place \$37, actually cost him \$71. The moral of this is (patronize the merchants in your own community), and actually save money.

Ned Malla has just come up from Palo Alto and was well pleased with the progress that had been made at his resort in Kings Beach and was tickled to see the no vacancy sign up. The resorts have been well filled the past few weeks all around the lake.

Madeline Hord, her daughter and son-in-law came up Saturday night for a stay which we hope will be a long one. Madeline has just about completely recovered from her operation of some time ago, and is delighted with the lake after living at Johannesburg which is on that hot desert. She reports that her mother who is still down there is coming along very well. Madeline is Sophie Miedema's sister.

Mrs. Jimmie Chastaine has been quite sick during the past week. I think it is more or less of a run-down condition and we sincerely hope she will be able to resume her community work, and completely recover. She is one of the hardest workers we have.

Work is progressing rapidly at the new structure of Dr. Thomas D. Wyatt next to Eugene's Chalet at Crystal Bay. It is to be a three-story building on the highway. The doctor has an office in Ta-Neva-Ho, Crystal Bay.

Now we have a couple of casualties, Regina Stubby, recent bride of our friend Harry, fell and broke her wrist while walking in Auburn. Very painful but we are glad it is not too serious. And Mrs. John O'Connor, our neighbor, sure has a beautiful shiner. How did she get it? John says he was not home at the time, so pleads not guilty. She says a nozzle of the hose with extra pressure twisted up and struck her eye, so it is agreed that was the cause.

Mr. and Mrs. John Dixon of Incline Beach are expecting a visit from his daughter and son-in-law, Mr. and Mrs. Ed A. White of Fort Wayne, Ind. Ed is president of the Bormer Instrument Co. of Fort Wayne. They will stay for two whole weeks, maybe longer. They may be bringing a new car for the John Mason Dixons. It is certainly wonderful to see Ethel Dixon looking so well, as she was really sick for quite a spell. She was lucky she had a guy like John, as I am told, he did all the housework including the washing, or did he?

It is nearly time something was done in regard to the growing menace of teen-agers who are dis-

regarding the warning of authorities against drinking. It is being done quite openly on our beaches and on our streets, in cars, and homes, right under the nose of their parents. Why don't these parents, or all parents get together and attempt to formulate some plan to counteract this menace, because we all know that in most cases the fault is with the parents. During the past week a youngster came to court for speeding, driving all over the road, ran up a bank and toppled over. No one hurt, by the grace of God. He said he had been drinking beer on the beach at Kings Beach. On, 16, was too drunk to get in the car, had to be carried. The one cited had to drive, only had four cans, he said. Found them on the beach. What can the court do? They are juveniles, so we in court are practically powerless.

To my way of thinking, they are every bit as grownup as you and I were at 21 or 22. With the hopped up cars, TV, and the debauchery that we see on the screen, and in so-called funny books, let us think the situation over seriously, and do something, what do you say?

## How much are Standard's owners paid?

75 years ago one of the companies from which Standard Oil Company of California grew was formed by five men. In those days smaller communities and simpler needs could be served by concerns owned by one man or a small group. They furnished all the money—they kept all the profit, too. But the West grew tremendously, and we've grown up with the West.

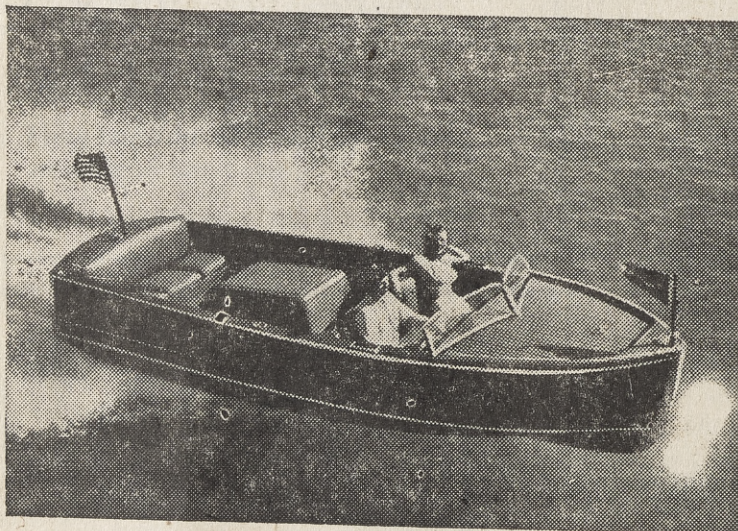

Today, no one man could pay for all the oil fields, refineries, and other equipment Standard needs to serve you well. These investments are shared among Standard's 112,000 owners. About 97% of these shareholders are private individuals like you—including 12,000 Standard employees, our largest single group of owners. In addition, 293 schools and universities are owners of Standard, along with 224 churches and religious organizations, 165 hospitals and medical groups, and 1889 small and large businesses. These are our sole proprietors—we

are neither owned nor controlled by any of the Standard companies in the East. Like the proprietors of any company, these shareholders receive the profits from their business. Each dollar they have in Standard is currently earning approximately 10¢ a year. Only about 5¢ of this is paid to them in cash. The remainder is plowed back into the business to bring you even better products and services... to stay ahead of competition. By planning ahead this way, Standard grows with the West, keeps pace with your needs.

### STANDARD OIL COMPANY OF CALIFORNIA

75 years of planning ahead to serve you better

## MORTIMERS HOSTS AS SLIDES SHOWN

TAHOE CITY—A most enjoyable evening was shared by a group of Tahoeites on Monday evening last at the George Mortimer home at Tahoe Park. Mrs. Mortimer and Mrs. Marguerite Webb were co-hostesses.

Ralph Eddy of Oregon City, Ore., honored guest of the party entertained the assemblage with color-slides he has taken during his travels throughout the west, and across the United States in general. He has been a professional photographer most of his life and has always wanted to make a special study of the wonders of the western states, so about three years ago he purchased for himself a trailer and since that time has indulged his lifelong yen to capture in color the natural beauty of sky and tree and flower. His collection included a series of mountains, lakes, trees, rock formations, desert flowers in brilliant contrast, ethereal sundown and cloud clusters, and spectacular vistas of the famous Grand Canyon.

Among the guests were Leese Mather of Bishop, and his wife Betty. Mather brought along some of his most recent canvases to display, all receiving admiration and approval. He is a landscape, and portrait artist and has exhibited his work all over the nation. The couple has an eight months old son, David. Those who enjoyed the impromptu showing and refreshments which

## Foreign Cars Lead In Travel, Report Indicates

SACRAMENTO (CNS)—More automobiles with out-of-state license plates entered California in June than cars with California registrations, the department of agriculture reported here today. The count showed 177,686 foreign cars as compared to 170,444 home based automobiles.

The department's 18 point of entry stations showed a total of 508,164 passengers from out-of-state; 457,565 Californians, and 83,700 entering California by stage, for a grand total of 1,054,429 people entering.

## SLOW DRIVERS ARE WARNED BY PATROL

SACRAMENTO—Slow drivers must keep to the right.

In issuing this reminder to motorists, California Highway Patrol Commissioner B. R. Caldwell emphasized that while speed and reckless driving are the most frequent causes of accidents, driving in the center of the road at slow speeds which impede traffic is also dangerous and unlawful.

"The always serious problem of keeping slow drivers to the right is worst during the summer vacation season when highway traffic volume is heavy.

"Some impatient drivers try to see how far and how fast they can travel, while others, it seems, try to see how much country they can scan while creeping along in the center lanes of main highways," Caldwell pointed out. "The slowpoke causes the speeder to attempt unsafe passing, to follow too closely, or to drive on the wrong side of the road. Then, of course, there is trouble."

In reviewing the vehicle code section which requires drivers of slow moving vehicles to keep to the right, the commissioner reminded that regardless of the speed of the normal flow of traffic, a vehicle traveling slower than that flow must be driven in the right hand lane or as far to the right as practicable.

"The only exceptions are when

followed included Mr. and Mrs. Art Stokes and their neighbor, Mrs. Jessie Ray, Mr. and Mrs. Paul Webb, Mrs. Gladys Anderson, Pine-land; Mrs. Ruella Hamblin, Tahoe Park; Jack Townsend, Washington, D. C.; Sydel Seidman, San Francisco; Mrs. Louise Geier of Tahoe Park, and grand-daughter Susan Lynne Bailey; Mr. and Mrs. Gordon Carlson of Mountain View, Mrs. C. R. Well, Tahoe Park; B. Brooks, and Eleanor Swanson of Tahoe City.

## COST OF AID TO AGED IS CITED

Aid paid to the aged in Nevada County during May was equal to about 93 per cent of the aid paid to all the needy aged people in the entire state of Delaware during April, California Taxpayers' Association reported today.

Aid paid to the needy aged in the county totalled \$60,013 for May, compared with the \$64,412 paid in Delaware for April.

The number of people receiving this one kind of aid in the county reached 911 for May, compared with the 1687 on the rolls throughout the sovereign state of Delaware for April.

Average aid paid per needy aged person in the county during May was \$65.88, compared with the California state-wide average for May of \$69.04 per person. The Delaware average for April was \$38.18 and the nation-wide average was \$51.34.

California state-wide paid out more in aid to the needy aged during May, a total of \$18,766,062, than was paid out in the three states of Illinois, \$5,644,596, New York, \$7,977,542, and Michigan, \$4,189,750, combined during April.

William Bailey, summer resident here from San Francisco has a stamp collection which has caused comment among other collectors. He has more than 400 different foreign and United States stamps with the topical idea of horses, at least one in each stamp in the well displayed album.

a vehicle is passing another bound in the same direction, or when preparing to make a left turn at an intersection or into a private driveway," Caldwell explained.

### SUMMIT SCENE

by FRAN COUILLARD

Nature study from our Post Office Window: We have watched a fat and cocky Robin build a resting place for her eggs in a most unusual place—in a v-shaped bracket that is part of the steel construction rigged as a cradle for a pro-

tane gas tank. By climbing the ladder that leads to the top of said tank we could look into her nest whilst she scolded us properly from a swaying pine branch overhead. We were witnesses to the first cracked shell and the emerging of two huge pairs of mouths which kept "fat and cocky" terrifically busy stuffing. Even from our window we could see those constantly open beaks poking out

over the edge of the nest. We wished that we could have helped Mama keep those endless empty holes filled—so tirelessly she toiled. She finally became so used to our prying that she sat on the nest whilst we tried to peek under her feathers. We were happy to be invited to the "launching" a few days ago for as we stood on the ladder both feathered out "kids" were told to fly or else in no uncertain terms. We applauded as Mama swayed on her branch and directed with "right turn," "get yourselves off the ground"—left bank, right bank, and power dive. A for rent sign is now on the nest but the crumbs on our window sill bring Mama back to visit us each day. She peeks in with her head cocked and tells us how the "kids" are doing. Bet the Audubon Society in the Sugar Bowl didn't have such a well directed show.

Another trial launching in the Kingvale area! If Duncan Gillies green and white canoe had 30-54 as a name, we'd know what it meant. For Dunc started his canoe project in 1930 and launched same on the dammed up pond of the Kingvale's Yuba River portion August 1, 1954, amidst the cheers of all the small fry (about 20) that crowded the banks. No battleship ever had such a send-off—and no group of youngsters ever had such a thrill. "Leaks a bit," says Dunc as he carts that boat around on his trailer for all to see—"but we've got another idea to stop that!" So mayhap we'll have another launching.

Lots of laughter in the Beacon Hill backyard last Sunday as Elmo and Jeannie entertained their friends with a hot dog and ranch beans barbecue. Vonita and Larry Stephens with Christy Lee, their two and a half year old daughter—the latter startling everyone by jumping off the diving board into the arms of her mother in the pool; Kye and Eileen Rasmussen—Peg Travis and we; Carl and Pat

Leando and a few more whose names I have forgotten were the guests at the out of door barbecue picnic. Incidentally, Pat and Carol (Elmo's nieces) plan on spending a couple weeks with Aunt Jean and Uncle Elmo.

Under our sub-heading of interesting people we meet—we again introduce you to the Robert Shinn family, after neglecting their activities for the past couple of years. Many years ago Bob was one of the guiding lights in the Marin County Boy Scout movements. He, along with Harrison Ricksacker of Marin County—fathered the youngsters that gathered at Camp Pahatsi each year from the beautiful Bay area county. During the mentioned activity—he "discovered" the Lola Montez country and fell in love with that high ridge and meadow twin lake paradise. Never forgetting the beautiful spot—he initiated his family into the mode of living called summer camping. With wife Frances, daughter Norma and son Eric and guest, Michael Teilmann the Lola Montez country has become their summer home. Bob is a sculptor of note but finding his "tools" and materials too heavy to cart into the back country which is inaccessible to wheeled vehicles—he paints for pleasure in the summer months. "It took six pack horses to move them in this year," says our "horseman," Lonnie Goss.

And now for something of the Shinn's history. Bob's work includes garden pieces which has been installed in beautiful gardens throughout the country. The City Hall niches of Fresno hold some of his sculptured pieces. In the entrance to Walnut Creek's new shopping district stands a huge fountain wherein the central figure is a come true dream of Bob's. A six-ton monumental piece of work rests whilst the new Marin General Hospital get a niche ready for some. It took Bob a great longer time to tell us of his work than we have space to repeat it. From

what he says—tho' we believe his portraiture work is his favorite tooling.

Frances—born to missionary parents in India is a graduate of Ohio Wesleyan College—with post grad work at the University of California behind her—and a master's degree obtained in Mills College. She returned to India after acquiring her education and edited a magazine there. An oriental art historian—specializing in Indian and Japanese art—she is a "museum woman." She can say quite proudly that she was director of the Haggin Gallery of Stockton and curator of Japanese and Indian art in the Gallery of the Museum of Orientalia at Eugene, Ore. Devoting her time to her family she has left museum work but reproduces her knowledge of the arts in weaving, her patterns sought after—unique and interesting.

Norma charms the birds and wild life of Lola Montez with her flute—whilst Eric collects rocks for his fabulous collection—and builds rafts for a pastime. A trip to Lola Montez (which Helen Sully Best of Berkeley and Kingvale takes ever so often) is well rewarded by the hospitality offered by the intelligent and brilliant Shinn's.

We're unhappy to hear that our friend Johnny Lloyd of the State Highway Maintenance Department is to leave the Summit Division—but a peek into Bill Rutherford's kitchen at Donner Summit Lodge says that Johnnie is going to have a good send-off. A huge prime rib in the ice box means that about 50 members (or more) of the California State Employees Association will bid Johnnie "goodbye" this coming Saturday night. Also, Bill Rutherford announces, the Donner Summit American Legion Post will hold its election of officers meeting this Thursday night at Donner Summit Lodge, as Chuck Reynolds goes out of the presiding officer's chair.

Sherman Reams asks if we would like to take a "see ride" over the back country of our beautiful area as he goes on his fire patrol service. Several places, that we do not care to tackle by ourselves, are most intriguing—including the Grouse Ridge Look Out. We look forward to the trip and will report the beauties of the country we expect to see—and shortly, too! Another side trip that we expect to make will be to the Bridge Crew Camp of the Forest Service now camped at Onion Creek. Ten members of this crew labor to re-establish the steel bridge across the American River on the back road that leads to Forest Hill. The

## Look at the 3-way bonus you get in the car that's sweeping the nation!

1. You get the car that's styled for tomorrow—

and for just a few dollars more than the so-called "low-price three!"

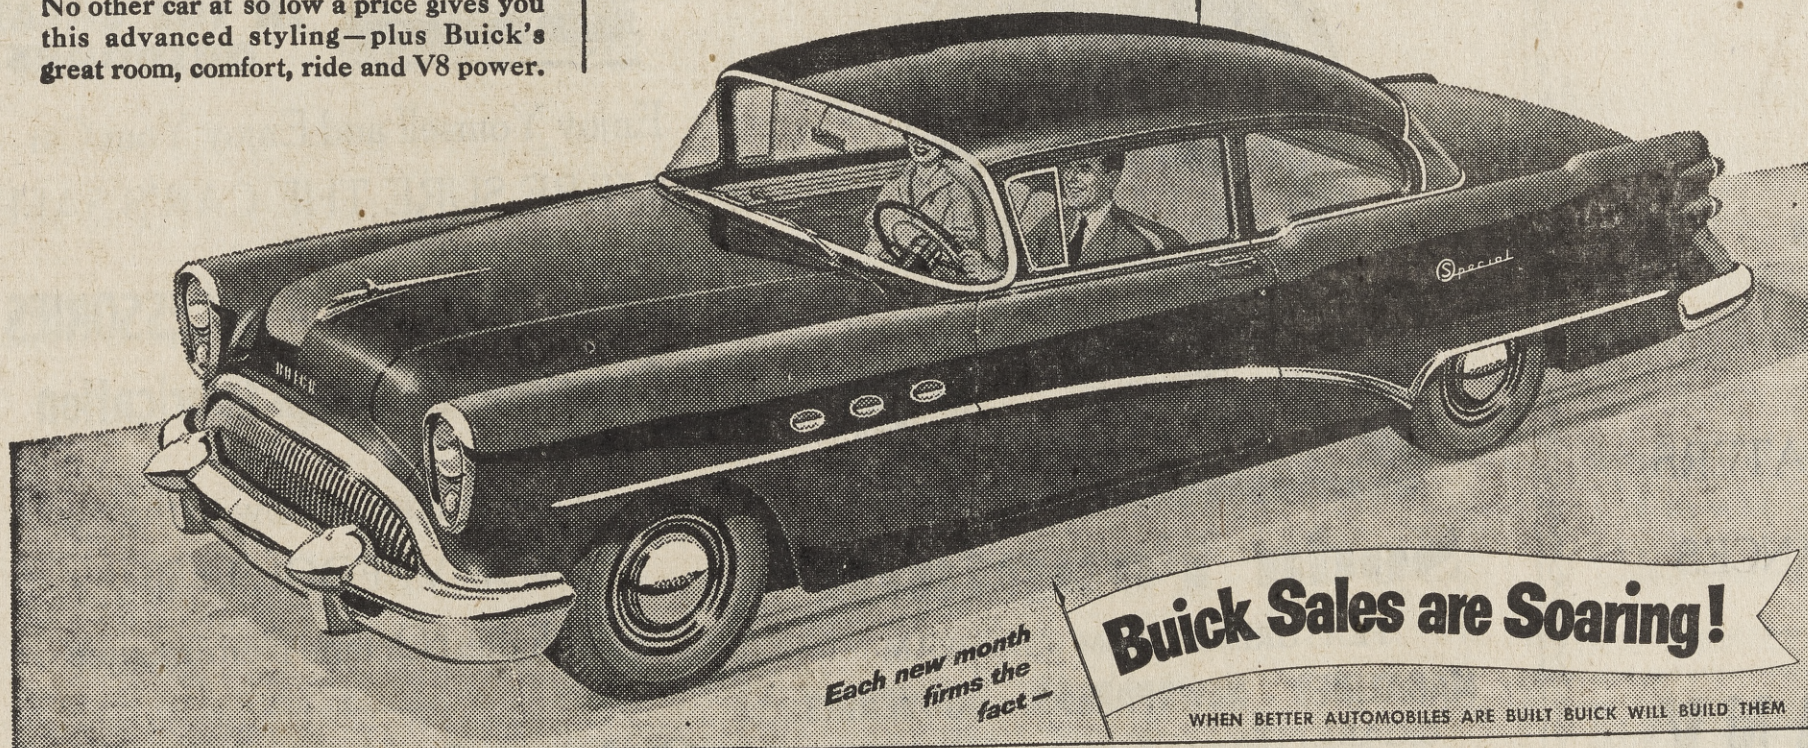

In Buick today you find the fresh modern beauty that will pattern the styling of other cars yet to come. That's a major reason for Buick's soaring success this year. But the clincher is Buick's low delivered price—lower than you think. No other car at so low a price gives you this advanced styling—plus Buick's great room, comfort, ride and V8 power.

2. You get the car that's a sure high resale value

Of this you can be sure: the new Buick you buy today will look modern next year, too—because that broad panoramic windshield will be appearing on other cars as a 1955 feature. So with the new Buick you buy now, you'll stay right up in the style parade for years to come—and command a higher resale price when you trade it in.

3. You get a bigger allowance from our volume business

Regardless of price class, Buick today is outselling all other cars in America except two of the "low-price three." That's fact. So with this tremendous sales volume, we can offer you a higher trade-in allowance when you buy a new Buick. Come in, see and drive Buick the beautiful buy. Then see for yourself how our volume business means a far bigger allowance for you.

## Lake Tahoe Letter

Tahoe City, Aug. 1  
Dear Tahoeites:  
The sky today over south Tahoe has been heavily overcast with

smoke which has caused some concern among vacationists and local residents as well. But the attendant at the William Kent Forest Station tonight assured me it was drifting in from the Stanislaus Forest fire, many miles away.

Tahoe has been having most unusual weather this summer, with the mercury rising to 82 yesterday, and about the same today. Ideal weather for sunbathing and swimming, but a little more warm than usual for this area. Crowds still continue to pour into the lake region from all states in the union, and the spectators at the Tahoe trout bridge, near Viking Village, has never been larger, more enthusiastic or more continuous.

Mr. and Mrs. A. A. Snyder of Lake Forest have been entertaining houseguests from Roseburg, Ore., Mr. and Mrs. Alvin G. Henninger. On Friday evening while dining at Cal-Neva the party had an unexpected surprise when a guest at the table next to theirs was asked to rise and take a bow. It was Jack Benny and party from Hollywood, vacationing at the north end resort.

Mr. and Mrs. John Hahn of Yuba City became the proud parents of another son, their second, on July 11. He has been called Carl Phillip. Three daughters and another son gleefully greeted the little newcomer. Mrs. Hahn is the daughter of Mrs. Justine Pingree of Tahoe City.

Guests during July at the home of the Charles Henriksens of Lake Forest included Lloyd Boerowman of Gridley, the Art Peters of Lafayette and Mr. and Mrs. Col Ventimiglia of Sacramento, the latter standing as godparents of little Steven Henriksen who was baptized by Bishop Noel Porter at the Outdoor Chapel on July 25. A family dinner party attended by Mr. and Mrs. Joseph Duffee of Sacramento, and the Oliver Henriksens followed at the Henriksen home.

Understand Rudolph Zimmerman, who has been critically ill at his home in the Sunnyside district on the lakeshore, and at a Reno hospital, was removed from Reno to his home in San Francisco by ambulance, and is reported recuperating satisfactorily, although he must take things easy for some time to come.

Mr. and Mrs. Albert Stevenson, their daughter, Mrs. Ethel Severson and her son Corky, who have occupied the large Sears' residence on the lake shore at Sunnyside Resort for the month of July left for home on Friday morning. Little Corky, seven and a half, en

joyed a bit of fishing before leaving with his grand dad off the Sunnyside pier and caught a 17-inch, two pound, rainbow all by himself after a twenty-minute struggle with the beauty on his line. His grand dad slipped the net under him after he was brought into the pier. And I'm told that Dave Fritsche of Fairway Drive, took one of the nicest and largest trout out of Squaw Creek one day recently when he caught a 26-inch. Most of the men folk report fishing has improved immensely since the creeks and river have been replenished by the fish and game. Good catches are being taken on all sides.

A visitor at Tahoe for a month on vacation was Mrs. Allan Pollitt, whose husband was formerly superintendent at the Tahoe Fish Hatchery near Tahoe City for some years. She occupied the family home near Lake Forest and was joined by her husband when he could get away from business. She left for home on Friday.

Mrs. Zella Mortimer of Tahoe Park had a busy time last week when she entertained a group of old friends and neighbors who dropped in on her. They included Mr. and Mrs. William Clark, Mr. and Mrs. Glen Hughes and Mrs. Sarah Hughes, all of Carmichael, and Miss Winnie Taylor, Mrs. Sadie Hess and Mr. and Mrs. Heine Waite, all of Sacramento. Mrs. Waite entertained her hostess and guests with stories of her recent two and one-half month tour of Europe, during which she visited the Azores Islands, Portugal, Spain, Italy, Ireland, France, Germany, England and Switzerland.

Spain, she found the loveliest spot in her travels, with ideal weather, beautiful scenery, friendly people and good food. In the Azores Islands she was greeted by a large number of the residents to whom she has been sending clothing over a long period. They were so grateful to see her they came from little hamlets and camped in the vicinity of her hotel for two days, bringing small gifts for her and assuring her over and over of their appreciation for her kindness to them.

Mr. and Mrs. Art Stokes of Truckee, who are the new owners of the former Jessie Ray home on the Truckee River, not far from Big Chief Camp, have been entertaining guests regularly all summer. Among the latest visitors were Mr. and Mrs. David Holcomb and two children from San Mateo, and Mr. and Mrs. Byron Houts and Mr. and Mrs. Clarence Clark of San Francisco.

About September 10 an Egyptian channel swimmer is scheduled to try swimming the length of Lake

Rape Story Discounted  
As Girl Is Questioned

The "rape" charge of a 19-year-old Grass Valley wife which started off a large scale investigation of identification of Mexicans living in the Truckee area and the subsequent round up of 15 to 25 "wetbacks" was purely a hoax it was discovered today by the Nevada County sheriff's office.

The girl admitted leaving Grass Valley for Reno to get a divorce. The story, pieced together from there on is that she became inebriated in the Nevada community and returned to Truckee where passersby in attempting to help her to her feet after seeing her fall in the street frightened her and she yelled "rape."

Tahoe, approximately 22 miles. He is Fahmy Attallah, a University of Southern California student, 44 years old, who claims title to the official record of continuous swimming between two points, 41 hours in the Mediterranean in 1941. No one has ever been known to swim Lake Tahoe lengthwise, as yet.

Mrs. Jeannette Mitchell, who represents the residents of Highway 89 south, last week received a communication from J. D. Dobbas, chairman of the Trans-Sierra Highway Committee, giving a report of progress of his group in regard to the promotion of a modern, four-lane, Trans-Sierra Highway, and enclosing two recent editorials stressing the need of such a highway in both peace, and war. The Sacramento Bee reports that Civilian defense officials give their unqualified support to four-laning Highway 40 over the Sierra Nevada and urge that its construction be started before the shooting starts. The San Francisco Examiner also urges the modernizing of Highway 40 or suffer chaos along that "life-line" in the wake of an enemy attack. Dobbas urges that all who are supporting this important movement write their congressmen especially Congressman George Dondero, chairman of the Public Works Committee, reminding him of the terrific importance of this project to the west, and telling him to keep up the good work. These expressions, Dobbas reports, are very important at this time. Mrs. Mitchell declares that the group she represents are all 100 per cent behind the proposed four-laning of Highway 40 and 50, too, if necessary.

Dick Leuschner of Merced, brother of Mrs. James D. Baker of Fairway Drive in Tahoe City, came up over the weekend to get his first peek at little James Richard Baker, born in Tahoe Forest Hospital on July 17. He returned home on Sunday evening.

Ring off for the week with a reminder that summer is passing swiftly, the meadows are brown, the wild flowers have reached their peak and are declining, and ere long it will be deer season, then fall. The flowers were beautiful this summer, but not nearly as plentiful as in other years, despite an early spring. Remember the fire hazard is severe, be careful in our beautiful forest! A cheery adios to one and all. As ever, Swance.

## NOTICE OF SALE

NOTICE IS HEREBY GIVEN that on the 20th day of August, 1954, at the hour of ten o'clock A.M., at the main entrance to the Nevada County Courthouse, in Nevada City, County of Nevada, State

of California, the undersigned trustee under the deed of trust executed by Marion R. Jones, party of the first part, to Oroville Title Company, a corporation, party of the second part, and trustee therein, and Ira O. Gifford and Laura

S. Gifford, parties of the third part and beneficiaries, recorded February 23, 1954, in Book 194 of Official Record of Nevada County, page 365 et seq., in the Office of the County Recorder of said Nevada County, by reason of default in the payment of the obligation secured thereby and in the performance of the covenants contained therein, including the breach or default, a notice of which was recorded March 11, 1954, in Book 194 page 533 in the Office of the County Recorder of the County of Nevada, State of California, of Official Records, will sell at public auction to the highest bidder for cash in lawful money of the United States the interest conveyed to said trustee by said deed of trust in and to the property therein described, situated in the County of Nevada, State of California, described as follows, to wit:

Beginning at a point on the

Northerly Right of Way line of Highway U. S. 40 from which point the corner common to Sections 8, 9, 16 and 17, Township 17 North, Range 16 East, M.D.B.&M., bears North 1298.23 feet; running thence North 84° 19' 00" East, 39.80 feet; thence North 0° 20' 00" East, 119.48 feet; thence South 78° 03' 30" West, 156.40 feet; thence South 10° 11' 00" East, 101.65 feet to a point on the Northerly Right of Way line of said Highway U. S. 40; thence North 84° 35' 00" East, along said Highway Right of Way, 95.00 feet to the point of beginning, containing 0.37 acres, more or less. Being a portion of the North one-half of the East one-half of the Northeast quarter of Section 17, Township 17 North, Range 16 East, M.D.B.&M., and a portion of the North half of the Northwest quarter of Section

## AFFAIRS OF STATE

Henry C. MacArthur

SACRAMENTO (CNS)—A 11 the while grandiose plans are being laid for billions of dollars worth of highway construction throughout the United States, fifty billion suggested by President Eisenhower, and ninety billion by the governor's conference, the small-scale traffic continues over U.S. 40 from Sacramento to the Nevada State line.

How many years ago the chambers of commerce in the counties through which the highway runs started agitation for a four-lane highway through the Sierra is a question apparently lost in antiquity.

The California legislature, recognizing the need for the highway, offered to match federal money to build this key, national route.

The state division of highways has been pecking away at four-lane construction for the past several years. It has a four-lane stretch of four miles just east of Sacramento, and about ten mile east of Auburn. Both of these four-lane are a boon to the motorist who wants to get places at a reasonable rate of speed but at the present rate of construction, it probably will take forty more years to complete the job.

Admittedly, the construction of a four-lane highway through the mountainous Sierra, will be a costly project, as well as one which in some spots will tax the ingenuity of highway engineers. But the engineering problem is not unsolvable and, apparently, the only thing holding up the construction is the ever-present problem of money.

The theory behind the gasoline tax increase in 1953 originally was to raise enough money to construct a system of strategic highways throughout the state. This theory was promulgated by Senator Randolph Collier, Yreka, whose senate interim committee on roads and highways performed some excellent work in developing the plan. But the legislature, apparently torn between the desire to do a job for the people of the state, and the limitations imposed by district jealousies, decided to continue the allocation of funds for highway projects on much the same basis that it had been maintained before adoption of the gas tax increase.

This means, then, that the state is somewhat hampered in outlining a project that it can work straight through, rather than going about it piecemeal, as it is doing in the case of the Trans-Sierra highway.

There appears to be no lack of support for a modern highway across the mountain barrier that separates northern California from the east, a highway which would be used in the event of not only for mass migration but also for the transmission of military supplies.

Other public officials have strongly recommended construction and the chambers of commerce have sign-boards all along the present, inadequate two-lane route, urging people to write their congressmen and demand the new road.

maintains the road is a prime necessity in the event of war, not only for mass migration but also for the transmission of military supplies.

Lieutenant Governor Harold J. Powers just recently urged construction of a trans-Sierra highway. Major General Walter M. Robertson, state civil defense director,

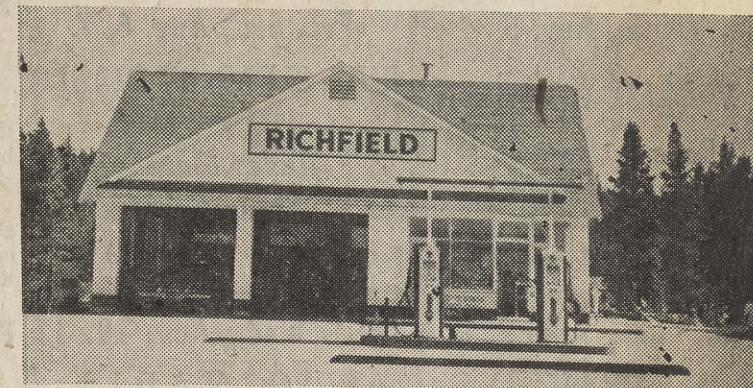

Other public officials have strongly recommended construction and the chambers of commerce have sign-boards all along the present, inadequate two-lane route, urging people to write their congressmen and demand the new road.

Lieutenant Governor Harold J. Powers just recently urged construction of a trans-Sierra highway. Major General Walter M. Robertson, state civil defense director,

## NOTICE TO VOTERS

NOTICE IS HEREBY GIVEN to the electors of the State of California that the following Bond Act will be submitted to the People of the State of California for their ratification at the next general election to be held on the second day of November, A.D., 1954.

FRANK M. JORDAN,  
Secretary of State.

## FOR THE VETERANS BOND ACT OF 1954.

This act provides for a bond issue of one hundred seventy-five million dollars (\$175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans to acquire farms and homes.

## AGAINST THE VETERANS BOND ACT OF 1954.

This act provides for a bond issue of one hundred seventy-five million dollars (\$175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans.

This proposed law, by act of the Legislature passed at the 1954 First Extraordinary Session, is submitted to the people in accordance with the provisions of Article XVI of the Constitution.

(This proposed law does not expressly amend any existing law; therefore, the provisions thereof are printed in BLACK-FACED TYPE to indicate that they are NEW.)

## PROPOSED LAW

An act to add Article 5e to Chapter 6 of Division 4 of the Military and Veterans Code, authorizing the creation of a debt or debts, liability or liabilities, through the issuance and sale of state bonds, to create a fund to provide farm and home aid for veterans in accordance with the provisions of the Veterans Farm and Home Purchase Act of 1943 and acts amendatory and supplemental thereto; defining the powers and duties of the said committee and of the Department of Veterans Affairs and other state officers in respect to the administration of the provisions hereof; providing ways and means, exclusive of loans, for the payment of the interest on such debt or debts, liability or liabilities, as such interest falls due, and also for the payment and discharge of the principal of such debt or debts, liability or liabilities, as such principal matures; and providing for the submission of this act to the vote of the people at the general election to be held in the month of November, 1954.

The people of the State of California do enact as follows:

Section 1. Article 5e is added to Chapter 6 of Division 4 of the Military and Veterans Code, to read:

Article 5e. Veterans Bond Act of 1954

996.25. This article may be cited as the Veterans Bond Act of 1954.

996.26. For the purpose of creating a fund to provide farm and home aid for veterans in accordance with the provisions of the Veterans Farm and Home Purchase Act of 1943 and of all acts amendatory thereof and supplemental thereto, the undersigned Finance Committee of 1943, created by Section 991, shall be and it hereby is authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the manner and to the extent hereinafter provided, but not otherwise, nor in any other manner.

996.27. After adoption of any resolution by the Veterans' Finance Committee of 1943, provided for in Section 991, the State Treasurer shall arrange for the preparation of the requisite number of suitable bonds in accordance with the specifications contained in such resolution. The aggregate par value of all bonds issued under this article shall not exceed one hundred and seventy-five million dollars (\$175,000,000) and shall bear interest at a rate not exceeding five percent per annum payable as provided in such resolution. Both principal and interest shall be payable in lawful money of the United States, at the Office of the State Treasurer, or at the office of any duly authorized agent of the State Treasurer.

All bonds issued under this article shall bear the facsimile signature of the Governor and the facsimile countersignature of the Controller and shall be endorsed by the State Treasurer either by original signature or by a signature stamp, and the bonds shall be countersigned, and endorsed by the officers who shall be in office on the date of adoption of the resolution of the Veterans' Finance Committee of 1943, and each of said bonds shall bear an impress of the Great Seal of the State of California, interest coupons attached to each bond shall bear the facsimile signature of the State Treasurer who shall be in office on the date of adoption of the resolution of the Veterans' Finance Committee of 1943. The Veterans' Finance Committee of 1943 shall require that said bonds be authenticated by the State Controller or by any Deputy State Controller, and in event no bond authorized hereunder shall be valid unless so authenticated in the manner so required. The bonds or coupons so signed, countersigned, endorsed, and sealed, when sold, shall be and constitute a valid and binding general obligation upon the State of California, although the sale or delivery thereof be made at a date or dates upon which the officers having signed, countersigned, and endorsed those bonds or coupons, or any one or either of said officers, shall have ceased to be the incumbents of the offices held by them at the date of adoption of the resolution of the Veterans' Finance Committee of 1943. Each bond issued under this article shall contain a clause or clauses referring to this article and to the resolution of the Veterans' Finance Committee of 1943, and shall be under the seal of the State Treasurer, and in the event of which said bond is issued, and if subject to call or redemption prior to maturity, shall contain a recital to that effect.

996.28. The State Treasurer shall, on the respective dates of maturity or prior redemption of said bonds, or as soon thereafter as said bonds are surrendered to him, pay the same out of the proceeds of the Controller's warrants drawn in his favor as provided in Section 996.29 and perforate the bonds so paid with a suitable device in a manner to indicate such payment and the date thereof. The State Treasurer, or his duly authorized agent, shall also, on the respective dates of maturity, cancel all bonds and appurtenant coupons bearing said dates of maturity and remaining unsold, by perforation with a suitable device in a manner to indicate such cancellation and the date thereof; provided, however, new bonds may be prepared and executed in lieu of bonds canceled solely by reason of the fact that such

bonds have not been sold prior to their fixed maturity dates, whenever the Veterans' Finance Committee of 1943 shall determine that such bonds shall be prepared and executed, subject to the condition the total indebtedness created hereunder shall not exceed the maximum limit herein specified. Not less than four years after the final maturity date of a particular issue of bonds, the State Treasurer, or his duly authorized agent, may destroy or create any bonds of such issue which have been previously paid or canceled as hereinbefore provided.

996.29. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereon. There is hereby appropriated from the General Fund in the State Treasury the sum annually as shall be required to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this article, and the principal and interest become due and payable.

There shall be collected annually in the same manner as the same time such as other state revenue is collected, such a sum, in addition to the ordinary revenues of the State, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collections of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said bonds, the principal and interest in each installment shall be returned into the General Fund in the State Treasury, all of the money in the Veterans' Farm and Home Building Fund of 1943, not in excess of the principal of and interest on the said bonds then due and payable, shall be and it hereby is authorized and empowered to use the same for the prior redemption of said bonds, and, in the event such money so returned is not sufficient to redeem all of the said bonds then due and payable, then the balance remaining unsold in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 shall be and it hereby is authorized and empowered to use the same for the prior redemption of said bonds, and, in the event such money so returned is not sufficient to redeem all of the said bonds then due and payable, then the balance remaining unsold in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 shall be and it hereby is authorized and empowered to use the same for the prior redemption of said bonds, and, in the event such money so returned is not sufficient to redeem all of the said bonds then due and payable, then the balance remaining unsold in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 shall be and it hereby is authorized and empowered to use the same for the prior redemption of said bonds, and, in the event such money so returned is not sufficient to redeem all of the said bonds then due and payable, then the balance remaining unsold in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 shall be and it hereby is authorized and empowered to use the same for the prior redemption of said bonds, and, in the event such money so returned is not sufficient to redeem all of the said bonds then due and payable, then the balance remaining unsold in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 shall be and it hereby is authorized and empowered to use the same for the prior redemption of said bonds, and, in the event such money so returned is not sufficient to redeem all of the said bonds then due and payable, then the balance remaining unsold in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 shall be and it hereby is authorized and empowered to use the same for the prior redemption of said bonds, and, in the event such money so returned is not sufficient to redeem all of the said bonds then due and payable, then the balance remaining unsold in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 shall be and it hereby is authorized and empowered to use the same for the prior redemption of said bonds, and, in the event such money so returned is not sufficient to redeem all of the said bonds then due and payable, then the balance remaining unsold in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 shall be and it hereby is authorized and empowered to use the same for the prior redemption of said bonds, and, in the event such money so returned is not sufficient to redeem all of the said bonds then due and payable, then the balance remaining unsold in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 shall be and it hereby is authorized and empowered to use the same for the prior redemption of said bonds, and, in the event such money so returned is not sufficient to redeem all of the said bonds then due and payable, then the balance remaining unsold in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 shall be and it hereby is authorized and empowered to use the same for the prior redemption of said bonds, and, in the event such money so returned is not sufficient to redeem all of the said bonds then due and payable, then the balance remaining unsold in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 shall be and it hereby is authorized and empowered to use the same for the prior redemption of said bonds, and, in the event such money so returned is not sufficient to redeem all of the said bonds then due and payable, then the balance remaining unsold in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 shall be and it ### Methodist Fellowship Has Busy Week Here

The Methodist Youth Fellowship spent a very busy first half of the week. Besides the regular Sunday evening fellowship meeting, they did an outstanding piece of work for the church and the pastor and his wife by cleaning out the basement of the parsonage on Monday evening. The 14 young people helped to fill some five or six trucks with junk and trash. Messdames Barnes, Beck, Englehart, Zuber and Osman helped to prepare the big feed for the young people after it was all over. The pastor and his wife wish to thank all those who helped to make the project possible and have a lot of fun doing it at the same time.

Tuesday night the MYF shared fellowship with the Kings Beach MYF here in Truckee. This interchange will be followed by a return interchange to Kings Beach on August 22 for a Galilean service on the shores of Lake Tahoe. This Sunday evening the fellowship will be led by a radio panel of Bert Beiler, Nedra Ray, Rosalie Kasplan, and Jo Ann Allen.

### Party on Eve Of Local Doctor's Departure

Dr. and Mrs. Sidney Kase have as their houseguest this week his father, Hyman Kase of New York City. Charles Jeffrey, the couple's 1-year-old son will be the incentive for a birth date party on Saturday, August 7. The doctor and his family will also leave on that date for San Francisco where he will enter the U. S. Navy. Mrs. Kase and children will return to Truckee next month.

### Injures Back—

Mrs. Lorraine Stockton of Carmel Bay was treated at the Tahoe Forest Hospital for an injured back.

### Donates Trees—

Mrs. Violet JeBein, Kings Beach, has donated five honeysuckle trees to be planted in the garden at the Tahoe Forest Hospital.

### SUMMIT SCENE

by FRAN COUILLARD  
(Continued from Page 5)

him is Mrs. Leona Neal and family. An ambitious summer program starts them off on a hike through Tioga Pass and into Tuolumne Meadows.

A "coming out" party for Peg Travis, whose leg emerges from its plaster cast. All's well now.

"Barney" Dreyfus seen this past week as he "steals" a few cool days off at the Dreyfus cabin located across the Yuba—back of Donner Summit Lodge. Barney laments the fact that his law business is keeping him too busy in San Francisco for a planned vacation this year.

Fish planting in the area still going on with all of our fishermen rejoicing. Many say that they'll help, if they can so, if anyone wants any help—let us know.

### NOTICE OF ELECTION TRUCKEE SANITARY DISTRICT County of Nevada State of California.

Pursuant to an order made by the Board of Directors of Truckee Sanitary District, that the herein-after mentioned election be held,

NOTICE IS HEREBY GIVEN that the Truckee Sanitary District general election of directors shall be held in said District on Monday the 20th day of September for the purpose of electing three Directors at Large No. 1, 2 and 3.

That the polling place in said election shall be at the Fire Station, Truckee, Nevada County, California, and the polls shall be open from the hour of one o'clock P.M. until 7 o'clock P. M. of said day.

That nominating petitions must be filed with the Secretary of said District not later than August 11, 1954.

Dated: August 5, 1954.

J. J. McGLADE,  
Clerk and ex-officio Secretary of Truckee Sanitary District. A511

### Leake Grateful For Big Support Given Him In Area At Primary

Paul Leake, this area's alert representative on the State Board of Equalization, stopped over in Truckee Tuesday for a brief visit on his way to Homewood, Lake Tahoe, for a short vacation.

In no uncertain terms he expressed his appreciation of the vote of confidence given to him in this section in the primary election of last June 8. "To say I am grateful for the support accorded me by your county's electorate is an understatement," said the hard-hitting state official, editor of a Woodland daily newspaper.

He added: "Somebody said: 'A man's reach should exceed his grasp, or what's a heaven for?' But such backing makes reach and grasp identical." Leake's aggregate vote over the Third District, comprising 25 counties, was 59,377 in excess of that

of his nearest adversary, Clinton Duffy of Marin County.

The Woodland newspaperman polled 3333 votes in Nevada County as against 2107 for Duffy.

"Most everyone must realize I am after no special glory or commendation," emphasized Leake. "I have no plans to launch a far-reaching political career. But I have very definite plans to continue doing a good job on the State Board of Equalization. There is still a mammoth job to do."

"What has been accomplished to strengthen liquor law enforcement and to improve tax administration on the board has been uphill going, all the way. Press and public cooperation have been potent weapons, but the task is far from finished."

"Words have a way of letting you down when you need them most. Today I do not find at my command adequate words for my appreciation of the support given me by Democrats and Republicans alike in your community."

### Truckee Public Utility District—Electric Department STATEMENT OF REVENUE AND EXPENSE

# Tarzan

by EDGAR RICE BURROUGHS

TARZAN HEARD THE PLAYBOYS' STORY AND INTERJECTED THE THEORY THAT 'UNCLE' BERNARD SHEA MIGHT NOT RETURN FOR THEM AT ALL.

THE APE-MAN TENDED HIS YOUNG WARDS. THEN MADE CAMP FOR APPROACHING NIGHT. "WHY-WOULDN'T UNCLE COME BACK?" ASKED STERLING.

"PERHAPS HE HAD AN ACCIDENT," REPLIED TARZAN KNOWINGLY. "--OR PERHAPS THERE IS AN OMINOUS PLOT--"

"THAT'S IT!" SHOUTED GEORGIE. "ALL THAT MONEY--AND HE'S YOUR ONLY HEIR!" STERLING MUMBLED DEJECTEDLY. "NO-I-I CAN'T BELIEVE IT!"

...DAYS PASSED, AND TARZAN HAD DECIDED TO LEAD THE DISILLUSIONED MEN TO SAFETY...

MEANWHILE, HOWEVER, BERNARD SHEA DID RETURN-- BUT ONLY TO CONFIRM THE DEATH OF HIS NEPHEW...

HE LANDED GINGERLY LEFT THE SECURITY OF HIS PLANE-- AND WAS SURPRISED BY A HORDE OF SCREAMING SAVAGES!

BERNARD SHEA GRIPPED HIS RIFLE WITH FIERCE DETERMINATION-- WHEN SUDDENLY THE WHOLE TROUPE CLOWED BEFORE HIM IN REVERENCE!
